

Computational Methods in Wood Mechanics -

from Material Properties to Timber Structures

Invitation for Sponsorship & Exhibition

The ECCOMAS Thematic Conference **CompWood 2025 - Computational Methods in Wood Mechanics - from Material Properties to Timber Structures** will take place on the premises of TU Wien on June 4-6, 2025.

The CompWood 2025 will build on a successful tradition of conferences that bring together experts in the evolving field of computational methods in wood mechanics. The experimental community, essential for the validation of all models, is also encouraged to participate. It aims to be both an exciting scientific event and an opportunity to enjoy the unique culture of Vienna.

Distinguished colleagues have agreed to deliver **plenary lectures**, comprising Thomas Bader (Linneaus University, Sweden), Philippe Grönquist (University of Stuttgart, Germany), Eric N. Landis (University of Maine, USA), Carmen Sandhaas (Karlsruhe Institute of Technology, Germany), and Staffan Svensson (University of Boras, Sweden).

The scientific programme of CompWood 2025 will comprise about **100 presentations**.

Conference details are available on the webpage at <https://compwood2025.conf.tuwien.ac.at/>.

The exhibition is an integral part of the conference, providing attendees with the opportunity to update themselves on the latest technical developments. Furthermore, it presents our **industry partners with the chance to interact with a great number of key decision makers and potential new clients**. The exhibition will be combined with coffee and lunch break areas, thus ensuring maximum exposure and visibility for your company as well as a flow of visitors to the company booths throughout the entire conference.

Your support is essential for the success and attractiveness of the conference and will be highly appreciated by the organizers. We would be pleased to welcome you at CompWood 2025!

Please submit the attached application form to secure your sponsorship and exhibitor space as soon as possible. Please see below details of the different sponsorship and exhibition packages:
